

DLTV can help you and your school with all things **DIGITECH**

Digital Learning and
Teaching Victoria

DLTV provide high quality face to face workshops and conferences. We can also deliver content to you at your curriculum day, staff/KLA meeting or as consultancy. We have a bank of qualified presenters who are all current or ex-teachers.

All our presentations are reasonably priced and we don't invoice unless you're 100% happy.

SAMPLE TOPICS

- Guide to the Digital Technologies learning area
- An intro to teaching algorithms and visual coding for upper Primary
- Getting started with classroom coding and electronics with the micro:bit
- An intro to teaching Python coding (Secondary)
- An intro to teaching JavaScript coding (Secondary)
- Digital citizenship
- Gaming as learning
- Coding and Robotics in the classroom
- Improving literacy and numeracy outcomes using DigITech
- How VR and AI will impact on your students learning
- Everyone's a Digitech teacher a cross curricular approach
