

WHY SHOULD YOU RENEW OR JOIN DLTV?

MEMBERSHIP

Our strong membership is what allows us to deliver content that is of vital importance in the time of remote learning and lockdowns. A great deal of what we do is free, we are committed to teachers, students, parents, and schools.

We can only provide this service with the support of our actual members.

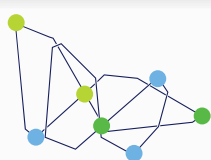

Here's just some of what DLTV has completed:

- created an extensive series of **webinars with a Digital Technologies focus**,
- designed and produced **virtual modules in the Digital Technologies space**,
- recently delivered virtual content about **Object Oriented Programming**,
- with the help of the Australian Computer Society and other subject associations, produced a series of articles about **DigiTech and ICT across the curriculum**,
- participated voluntarily in the recent **ACARA review of Digital Technologies**,
- produced a series of **Case Studies** with a focus on Digital Technologies implementation, for schools to learn how others schools are delivering this learning area.

At DLTV we believe every teacher is a DigiTech teacher and here's some of the reasons we think you should come with us on the journey:

- It is your membership that allows us to generate high quality, relevant content.
- DLTV provides innovative and comprehensive professional learning to all educators from pre-service teachers through to principals. Our members receive this at heavily discounted rates and this includes our annual conference DigiCon.
- Our committee are all volunteers who have been teachers, so they understand your needs and your perspective. See our **Committee of Management**.
- We're passionate about what we do, and our friendly staff are always on hand to offer you and your school advice and support.
- With the help of our professional learning team, we can support you and your school with both delivery, content and advice for your curriculum days or in-house professional learning.
- We have great connections to our industry partners including Acer, ACMI, Google, Adobe, Microsoft, to name a few. This permeates down to our membership through advice and support.
- We strongly advocate for our members including most recently providing high quality input to ACARA about the Australian Curriculum review. (See the article in our latest **Journal**.)
- We provide our membership the latest product reviews plus special offers and discounts from our industry partners such as **The Brinary, Pakronics, Box of Books, Zenva, INTEGRATE AV** and **Digital Technologies Hub**.
