

QUALITY DIGITAL TECHNOLOGIES PROFESSIONAL LEARNING

PROUDLY SUPPORTED BY DLTV

MAKING DIGITECH & ICT MAINSTREAM

Digital Technologies and ICT capabilities are now requirements in schools, and there are many opportunities to incorporate both across multiple learning areas.

In this workshop, Catherine Newington From the Australian Computing Society will show you practical examples for addressing both the Digital Technologies curriculum and ICT capabilities in Primary and Secondary classroom contexts. Catherine will showcase samples of ideas and lesson ideas taken from a series she has produced for DLTV in cooperation with other subject associations, *DigiTech* and *ICT Across The Curriculum*.

MAKING DIGITECH AND ICT MAINSTREAM

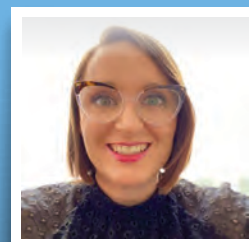

WEDNESDAY 28 JULY, 2021 | 1.30am - 3.30pm

DLTV Training Centre, 61 Blyth Street, Brunswick

\$45 PER ATTENDEE

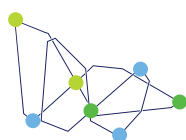

REGISTER AT  dltv.vic.edu.au/event-4356896

ABOUT THE PRESENTERS

Catherine Newington is the ICT Educator Specialist at Australian Computing Society, and is a registered teacher with over 12 years' experience in the classroom including 5 years as learning and teaching leader.

She leads the ACS national program to support schools to implement the Digital Technologies Curriculum. Working with schools she creates resources that target the curriculum and support content knowledge growth.
